European Gymnastics Guidelines for display of flags

Edition 2026

EBU
OPERATING EUROVISION AND EURORADIO

SMARTSCORING

These guidelines were developed in order to help the Local Organising Committees to correctly display the flags of our National Federations during European Gymnastics events.

During European Gymnastics events, the versions of the flags (digital or physical) which are presented in these guidelines must be used for the following purposes:

- presentation of the nations as part of the opening ceremony
- obligatory display of the flags of the participating countries in or outside the competition venue (e.g.: around the FOP, in the foyer or at the main entrance of the venue)
- display of flags during award ceremonies
- flags displayed as part of the Sport Presentation

The horizontal and vertical display as well as the order published in these guidelines need to be respected.
The flag of the host country is the last in the order before the flag of European Gymnastics.

The Local Organising Committees of the European Gymnastics events will provide all the flags of the represented National Federations as well as the flag of European Gymnastics in the same horizontal or vertical format.
The Head of Delegation will have to confirm the exactness of its country flag during the accreditation.
