SMARTSCORING

Dear all,

European Gymnastics is pleased to herein provide you with the Directives for the planned 2026 MAG Online Competitions.

GENERAL PRINCIPLES

The competitions will be organised through the **Elevien** online platform.
Elevien is a gymnastics digital platform that enables online gymnastics competitions. Gymnasts and judges can be anywhere in Europe and participate in the competition together. The competition is conducted in such a way that, through the Elevien platform, the gymnast records his exercise with a mobile phone, and the recorded exercise is automatically sent to the judging panel for judging. After receiving the final score, the gymnast is automatically included in the result list of the apparatus on which she/he performed.

In this way, gymnasts will be able to compete, regardless of their location, with no travel costs.
It will also allow an unlimited number of spectators, all over the world, to watch this gymnastics competition.

Each gymnast can register for the competitions on one or more apparatus depending upon the specific rules for that competition.

These **2026 MAG Online Competitions** will be organised under the authority of **European Gymnastics** and can serve the gymnasts to prepare for the upcoming European and World Championships 2026, plus provide gymnasts with the opportunity to compete in new competition formats with prize money.

The competitions will be organised following the:
FIG & European Gymnastics Statutes and Technical Regulations (TR),
FIG Code of Points **2025 – 2028,** the relevant newsletters and help desk,
FIG General Judges Rules,
FIG Specific Judges Rules,
FIG Anti-Doping Rules,
European Gymnastics Media Rules,
FIG Apparatus Norms,
FIG Code of Ethics,
FIG Code of Conduct,
FIG Code of Discipline,
as well as all other Rules and Guidelines valid starting 01 January 2026 onwards, any possible amendments by the date of this competition, and any complements decided in the meantime. The additional rules made in these directives take precedence over the rules listed above due to the nature of the online competition. If there is any difference between the two documents, the ECC Rulebook takes priority for this competition. The MAG European Club Cup is a competition between clubs held over several rounds, rather than an individual online competition. It therefore requires its own detailed rules, which are set out in the ECC Rulebook referred to in these Directives.

All participating gymnasts commit to abide by the Statutes and all European Gymnastics & FIG Rules and Regulations. Gymnasts not respecting these rules & regulations will not be allowed to compete.

All information can be found on the website of European Gymnastics, under competitions.

- The online organiser will inform the superior jury who will review the exercise and, if necessary, adjust the D score of the gymnast.
- The gymnast also has the right to request a review of any neutral deductions and bonus. This request must

also be received up to 10 minutes after the neutral deductions / bonus is published.

Next to each result there will be a video recording of the performance that can be watched countless times. In this way, **Elevien** will provide the **"Video & Result book"** of the competition.
During the competition, only the Difficulty Judges' Panel will be able to review the performance video, if necessary.

10. COMPETITION FORMAT

Perfect 10 – Code of Points
The Perfect 10 event will take place with a reduced Code of Points with emphasis on well-performed, high-level gymnastics.

The best 5 elements on floor exercise and the best 4 elements plus dismount on pommel horse, rings, parallel bars and horizontal bar will count. The exercise start value (SV) will be the value of the best 4 elements in the exercise plus the value of the dismount (FX last tumble pass). For vault, a gymnast who performs a vault with value of 4.4 or above will have their final score judged from 10.0; a vault with SV 4.0 will have their final score judged from 9.6 etc. Only 1 vault will be performed per gymnast.

- Ties will not be broken. In the case of a tie in the final, the prize money concerned will be shared.
- The maximum SV will be 2.0. For example, 4 best elements: D, E, E and D plus dismount C; element values add up to 2.1 but SV is 2.0. A gymnast who performs an exercise with SV 2.0 will have their final score judged from 10.0; an exercise with SV 1.9 will have their final score judged from 9.9 etc..
- Execution deductions will be made in accordance with the 2025-2028 CoP.

The MAG Perfect 10 – Online Competition will use the Perfect 10 Code of Points for evaluation of the exercises.

All other Online competitions will use the full FIG MAG Code of Points. The MAG European Club Cup uses the full FIG MAG Code of Points (ECC Rulebook).

All Around and Apparatus Finals
The gymnasts on each apparatus will compete for the respective Apparatus title.
Those who participate in all apparatus (on Vault just one vault / first vault) will be included in the All-Around ranking.
For the MAG European Club Cup one vault only will be performed per gymnast (ECC Rulebook).

Competition Program

- The gymnast will only get one opportunity to record their performance through the Elevien application. After stopping the recording, the video is automatically uploaded in Elevien and will be available for evaluation and visible to the audience at the start of the judging window. For the MAG European Club Cup, each routine is recorded once, with re-recording only for a verified technical failure approved by the ECC Committee (ECC Rulebook).
- The entire competition, together with recordings of performances and results, can be followed during the judging window, and after the last performance has been judged, the final Video result lists will be complete.

11. EQUIPMENT, CLOTHING AND EXERCISE RECORDING

Equipment and Clothing

Gymnasts will compete in their own facility with equipment and matting as near to FIG specification as is possible. Specifically, apparatus height must be as per FIG Apparatus Norms, the apparatus must be positioned over a hard landing **(not over a pitted facility)**, and no extra mats are allowed, except as set out in the ECC Rulebook for the MAG European Club Cup.

Please note: **Violation of these apparatus rules risk Apparatus Neutral Deductions (0.50) being applied to the exercise score for that gymnast.**

Gymnasts should perform dressed in gymnastics competition attire.

Exercise Recording

The camera recording should be made from the side of the apparatus, at an angle approximately the same as the pictures below.

The gymnast must be in full view for the entire recording with no obstruction to the view, with just as much as is enough to fit the entire body of the gymnast in the frame, and not too far that the details cannot be seen.

For Floor Exercise and for Vault, it will be necessary to move the camera to ensure the gymnast remains in the picture, in focus and with a clear view using zoom as necessary.

Please note:

1. **Videos must be uploaded during the competition window specified. Videos that started recording prior to the end of the upload window will have 15 minutes after the window closed to complete uploading. Any video that started recording after the window closed or, in the case where the recording started prior to the window closing, which does not finish uploading 15 minutes after the window closed, will not be evaluated – the exercise will be marked as Did Not Start (DNS).**

2. **For the exercise to be uploaded within 5 minutes of recording, the upload speed should be a minimum of 20Mbps. Upload speed can be tested before the competition using https://www.speedtest.net/ or by creating your own event in the Elevien App and noting how long it takes to upload exercises to the App for your event. It is most important that the connection is stable. If issues are encountered with connection it is recommended to move to an alternative location with good connection using either Wi-Fi or 4G.**

3. **The Superior Jury will award a final score of zero for any exercise that cannot be fully evaluated due to the poor angle or distance of the images, or poor detail of the gymnast in the recording**.

12. PUBLICITY

The gymnast and/or coach must ensure that any advertising on clothing, apparatus, background or any person in the exercise video does not include any political slogans or signs, motivational words or logos. Designs or items depicting war, violence, sexual or religious themes are prohibited. Advertising on clothing may not be placed in a way that is provocative, or that violates good manners, ethical and moral social principles of our society, e.g. advertising that glorifies violent, racial, religious, political or sexist ideologies is not allowed.

Any exercise video uploaded that is deemed to violate the above will be removed from the Elevien App and the score for the exercise will be zero.

13. INSURANCE

The Online Organiser, European Gymnastics and the license-provider FIG will not be held responsible for any liabilities in case of accidents, illness, and the like.
The European Gymnastics and FIG Technical Regulations foresee that all participating gymnasts are responsible for making their own arrangements to have the necessary valid insurance coverage against illness and accidents which is valid for the participation in these online competitions.
